Supported Android {4.0 and UP} Supported Android Version:- Jelly Bean(4.1-4.3.1)- KitKat (4.4-4.4.4)- Lollipop (5.0-5.0.2) - Marshmallow (6.0 - 6.0.1) - Nougat (7.0 - 7.1.1) - Oreo (8.0-8.1) - Pie (9.0) Click Download Green button below, Wait for 5 seconds and click the skipad at the right top corner, and the file will be automatically download. Sometimes the file is in another website, just click the download and the file will be download. For more info click this link " . Game Cache Path to cache: Android/OBB 594MB Portal Knights, which has some similarities to Minecraft in some designs, as you can see in the introduction to the game, mining, building these elements all exist in this game, which is defined as having a very high degree of freedom Sandbox game, but the game supports multiplayer connection. On Portal Knight's main menu, the background sound will meet with players in full adventure style. When you choose the start game in the game, you will have fairy tale fantasy sounds. Official entry into the Portal Knight game, the game will continue to have the background sound accompaniment, but the sound effects within the game began to change from the main menu in the thick adventure style to a more fresh style of the game. Portal Knight, for different objects percussive sound effects, dirt blocks, ore blocks, wooden signboards, trees, etc. have their own different sound effects. Similarly, the sound effects of using bare hands and using tools to collect certain materials (like trees) will be different, the item will be set to be automatically picked up by the character, and the pick up time will also be picked up. In the attack on the characters, the attack sound weapons will exist, and the role of the attack on the way, "hey hey hey." The place where the player was born, and through the portal into the map after another, the player passed to convey a rather open view, the game is set on an island like "Sky City", the bottom is deep The bottom of the clouds, the surrounding is the edge of the horizon, the foot is full of natural fragrance. There are magnificent buildings in the distance, the forgotten ruins. Games in the default graphics settings will open the vista effect, for such effects do not like it in the graphics settings to turn it off. The game overall partial bright, bright, awake, and in the current items under the various tools will be kept in a dynamic form, the torch will be inserted into the wall, or the torch in your hand, there will be lighting effects. The overall game screen looks very comfortable, and magic in the game is also more cool, according to different clothes and protective gear, costumes in the characters will be different changes. Portal Knight game simple operation, only need a few basic game keys can be, since it is a sandbox game, also in the game for the creativity of this point, the game is set free, for most of the map Objects can be disassembled, reconstructed, decontaminated delightfully, muddy houses made easy, and sometimes objects are also anti-physical, similar to Minecraft. The game at the beginning for the players to choose for the swordsman, archers, mages, a total of three types of occupation into the game, in addition to Portal Knight in addition to having a free and open construction, but also will have the role of character attributes, character character level, talent The existence of trees, these need to be upgraded to take advantage of upgrade points to increase. The role of different professions in the talent tree individual talent will be different. No matter what kind of career you choose, the same can be used in the game of other occupations of weapons and equipment, but the emphasis on occupations and equipment will be different. Portal Knight also can create a variety of objects in the interface to create, such as furniture, workbench, boxes, gates and other buildings. some of the buildings need to be triggered in front of a specific workbench build, in addition, the game In the middle of the weapons, protective gear can also be built, and more advanced weapons, protective gear also must be built in front of a specific table, whether it is for the construction of furniture, or the need to create a variety of weapons Of the material, these materials require the player to collect from all kinds of maps. Portal Knight, is divided into a map after another, of course, there is a map of BOSS war exists, you want to go from the first map to the next map, you must find the portal, and the portal into the six blue The color squares, which pass through the portal, will reach the next map, and the materials that form the blue squares will need to be collected from the enemy. Weapons and tools in the game will also have endurance and will need to be repaired for damaged weapons and tools.-aPkawaRd.Com Each ed area can be passed over at any time, the scene is very beautiful, each area seems to be a floating island, not too big, not too small. The game has mining, making houses, exploring, fighting and other games, but this did not let me feel how much a sense of surprise, because these games are relatively simple and direct, in other words, is very weak. Although the scene is rich, with a variety of mobs, but the whole world can not make me feel angry. The game's process is to upgrade each area, collect materials, make equipment, build a house, and then find the portal to send to the next area. The game is indeed innovative, and its combination of MC and RPG play makes the game look great, but the content is limited and the game has not been fully exploited. Will be the key to a game that can develop into a good game. Features * Controller Support has been added. - iOS - Support for MFI controllers featuring extended layout (with two thumb sticks). - Android - Supports dual-stick game controllers including Microsoft Xbox One controllers. Other controllers featuring a similar layout may also be supported. * Island "Fort Finch" is now a town filled with quests, new NPCs, merchants and details to discover * A new type of merchant sells mannequins. They can be placed anywhere and equipped with the player character's armor and weapons to show off the equipment crafted and found during the journey. The merchant can be found in "Fort Finch". * A new NPC type allows changing the appearance of the player character. * Some NPCs can be picked up and be relocated to any location now. * Several new props for home decorations have been added, including bath room furniture, cage doors, potted plants and awnings. * A new "sit" emote has been added to the emote menu. * Furniture can now be interacted with. The player character can sit on chairs, thrones, benches etc. and lie down on beds etc. When lying down on a bed, the time will speed up. * A Water pump and a drain are available now. * Pets can now be placed in pet homes. The pet homes can be purchased at Funny Jonga and once placed the pets can be allocated to the new home. The pets will freely roam about in the vicinity of the home. * Several new weapons and weapon variants have been added. * Enemies now take more damage when being attacked from behind. * Crystals now have seedlings just like plants and can be grown in their correct biomes. * A new type of epic chests spawns at the end of dungeons, containing special weapons which are unobtainable in any other way. * NPCs can now be found in the island information on the map. They will list name and type as well as display whether they are relocatable or not. * Loading screens now show gameplay tips.
